Students who were eligible for admission to the California State University based upon their high school grade point average and SAT or ACT scores may be eligible to transfer with less than 60 college semester units (lower division transfer). However, the student must have maintained at least a C average in all college work and must be in good academic standing. Most campuses of the CSU system will not accept lower division transfer students. Check with a counselor to determine available options.

S tudents who were not eligible f r admission from high school must complete 60 transferable college semester units with a 2.00 average. S tudents, who meet these minimum standards, while eligible $f_1r_{eligible}$ for a CSU campus, may not be accepted into a specific major or department. In the case of impacted majors and/or campuses, other selection criteria are also used.
